

# GET A JUMP-START ON PRESCHOOL.

## EARLY PRESCHOOL LEARNING

Our new indicator-based curriculum, *Learn as We Grow*, has been specially designed to meet the needs of 30- to 42-month-old children who are preparing for Preschool, by building the routines and self-help skills all independent learners need!

**THIS IS AN EXCITING TIME IN YOUR CHILD'S DEVELOPMENT AND WE CAN'T WAIT TO SHARE THE EXPERIENCE.**

Building on the foundation of the *Learn from the Start*<sup>™</sup> curriculum for infants and toddlers, *Learn as We Grow* features three important focus areas of content:

### Understanding Routines and Transitions

- Picture schedules offer children visual clues to find structure in their day.
- Transition fans are fun, creative ways for children to move between activities.
- Teacher transition tools support learning and children's need for solid routines.

### Developing Independence

- "I Can" posters encourage children to learn responsibilities.
- Other signs and posters explore conflict resolution and behavior expectations.

### Learning Through Experiences

- Large- and small-group learning experiences are intentionally planned by teachers, based on observation and assessment of each child's needs.
- Storytime cards focus on strong oral language and early literacy exposure, with literacy tips on Oral Language, Concepts of Print, and Understanding Stories.
